

### **Priorities**

Fruit cage weeding, and put down some weed submission  
Carrots and remaining parsnips need thinning and weeding  
Celeriac bed weeding  
Far side needs weeding  
Plant 50 squash but probably need to spot weed and then weed around them after their planted  
Weeding and carrots Thursday (tomorrow)  
Carrots and squash on Saturday  
Agreed to cover leek and French bean area with weed suppression  
Sow some seeds

### **Planting**

Beetroot  
Tomatoes - 30-40 left so will plant some outside  
Aubergines- have grown more so that we can plant some outside  
Need to find time to plant them out over the next few days

### **Weeds**

Need some more beds and/or a bonfire  
Agreed to empty the leaf mold into bin bags and use that bay for more weeds

### **Staking**

Agreed to try and use the Hampton Court way of tying up the beans and re-use the string from Wisley.

### **Trays or capillary matting**

Suggestion to use them for the aubergines  
Agreed trays are better than capillary matting  
Agreed to buy some trays to trial the process

### **Watering**

Everyone said the rota was fine. Agreed for JW to buy another lance.  
Greenhouses to have small watering cans  
15 June - Ray covering for JW  
19 June - Ashley covering  
24 June - JW covering for JF  
For cucumbers please spray all the woodwork to increase the humidity

### **Peas**

Pea netting has worked really well  
Pea sticks - do we think that a different method is needed  
Bio-degradable ties to be tried next year  
Heras fencing to be tried next year for the peas and mange tout, let's put out some tendrils and see what the options are.

### **Open Day**

JW to sort out the labelling  
One way system is probably needed  
Could give tours on request  
Need to tidy up the trip hazards on the morning  
No dig leaflets  
Block the route by the wall - ask Eddie about making path slightly wider

### **Onions**

Have uncovered autumn onions  
Agreed to uncover garlic and other autumn onions before the Open Day.

### **Potatoes**

Will soon start cropping, need to come up with a method to make sure none are missed. Agreed to put string down and role it up as we crop.

**Compost bins** - could enquire about availability of wool to make some insulated bins - JW to discuss with Rob and the shepherdess

### **Woodchip**

Robin to check with Bob

See you soon  
Justine
