

Grace and Flavour Fruit trees (Updated May 2017)

As at March 2016, a total of 74 fruit trees are planted in three distinct areas:

1. Along the east and west sides of Hollier Avenue - 52 fruit trees
2. Along the garden side of the west wall – 11 fruit trees
3. In the “Orchard area” by the car park and allotments – 11 fruit trees

Of the 74 trees, Eating Apple: 19; Crab Apple: 3; Cooking Apple: 8; Pear: 18; Plum: 16; Gage: 4
Cherry: 1, Quince: 5

Hollier Avenue (South to North orientation): 52

Eating Apple: 12; Crab Apple: 3; Cooking Apple: 1; Pear: 17; Plum: 16; Gage: 2, Quince: 1

Planted Winter 2011 unless otherwise indicated with ^{^,*, +,@,&=, £, AA}

Cooking apples

'Jubilee' x 1 – Hollier Avenue

'Annie Elizabeth' x 2 – garden side of west wall

'Bramley' x 5 – Car park

Grace and Flavour Fruit trees (Updated May 2017)

Pollination Groups:-

Fruit trees within the walled garden (Hollier Avenue and the west wall)

SF = Self Fertile, no pollinator required

	Pollination Group	Pollinated by	Picking Month
Crab Apple 'John Downie'	N/a	N/a	One of the best pollinators for orchard apple trees – only one needed
Apple 'Annie Elizabeth' ^c	4	3, 4, 5	Mid October
Apple 'Cockle Pippin'	2	1, 2, 3	October
Apple 'Cox'	SF	N/a	Mid Sept onwards
Apple 'Duchess Favourite'	3	2, 3, 4	Late August
Apple 'Gascoyne's' Scarlett	5, Triploid	4, 5, 6	Mid September
Apple 'Joybells'	4	3, 4, 5	Late September
Apple 'Jubilee'	4	3, 4, 5	September
Apple 'Pixie'	4	3, 4, 5	Mid October
Apple 'Red Claygate Pearmain'	4	3, 4, 5	Early/mid October
Apple 'Worcester Pearmain'	3	2, 3, 4	Mid September

'Gascoyne's Scarlett' - as a triploid, for pollination requires either one self fertile apple variety (or crab apple) or two other varieties which can cross-pollinate each other as well as the triploid variety.

Pear 'Beurre Hardy'	4	3, 4	September
Pear 'Celebration'	3 SF	4	Late September
Pear Nuvar [®] 'Celebration' ^{1E}	Self sterile	3,4,5	Late September
Pear 'Conference'	3 SF	2, 3, 4	September

Pear 'Beurre Hardy' is a poor pollinator for other pears, but will serve as a pollinator for Pear Nuvar[®] 'Celebration'

Quince 'Vranja'	SF	N/a	October
-----------------	----	-----	---------

Plum 'Czar'	3 SF	N/a	Early
Plum 'Early Transparent Gage'	3 SF	N/a	August
Plum 'Opal'	3 SF	N/a	July
Plum 'Victoria'	3 SF	N/a	August
Gage 'Reine Claude de Bavay'	3 SF	N/a	Late

Grace and Flavour Fruit trees (Updated May 2017)

Cherry 'Sunburst'	4 SF	N/a	Mid/late July
-------------------	------	-----	---------------

Pollination Groups :-

Fruit trees by the carpark

SF = Self Fertile, no pollinator required

	Pollination Group	Pollinated by	Picking Month
Apple 'Bramley'	3 Triploid	2, 3, 4	October

Unable to pollinate other apples. As a triploid, for pollination requires either one self fertile apple variety (or crab apple) or two other varieties which can cross-pollinate each other as well as the triploid variety.

Gage 'Reine Claude de Bavay'	3 SF	N/a	Late
------------------------------	------	-----	------

Quince 'Champion'	SF	N/a	October
Quince 'Meeches Prolific'	SF	N/a	October

Grace and Flavour Fruit trees (Updated May 2017)

Notes:

1. In February 2016, of the ten originally planted cherry trees at Grace & Flavour, nine cherry trees were removed. All ten cherry trees were in poor health, suffering from canker, subject to severe aphid infestations and did not yield any fruit. The healthiest cherry tree, a Cherry 'Sunburst' on a Colt rootstock in February 2016 was transplanted along the west wall to the north of the blackberries. This tree, like the other nine cherry trees, suffers from canker and severe aphid infestations and has not yielded any fruit. The tree will be retained for a period of two years and then an assessment will be made whether this tree should also be removed.

The varieties removed were Cherry 'Stella' (five trees) and Cherry 'Colney' (four trees).

2. In winter 2017, two diseased and dead Gage 'Reine Claude Bavay' trees (original position Hollier Avenue, 11 and orchard area by car park, 66) were replaced respectively by a Plum 'Victoria' and a Quince 'Meeches Prolific."
